THINKING ABOUT YOUR CAREER

Thinking about your future career is exciting, but it can also be quite daunting. You need to select subjects to study at school, make choices with regard to further and higher education, and think about the interests you want to pursue. It is best to think of choosing a career as a process rather than a single decision.

A desire for professional status

Finding the job that is right for you

A desire to challenge yourself

Where you live now and where you would like to live

The work life balance you would like in your life

A desire for wealth and comfort

Exam results at University

Exam results at school

Work experience

The type of education you receive

An interest or skill, such as drama music, or sport

The subjects you're good at and enjoy in school

Influence of your parent / carer or role model

Many factors will affect your career choice

Your personality
